

Welcome! See below a quick user guide to assist you in managing calls and features on your application.

Making Calls

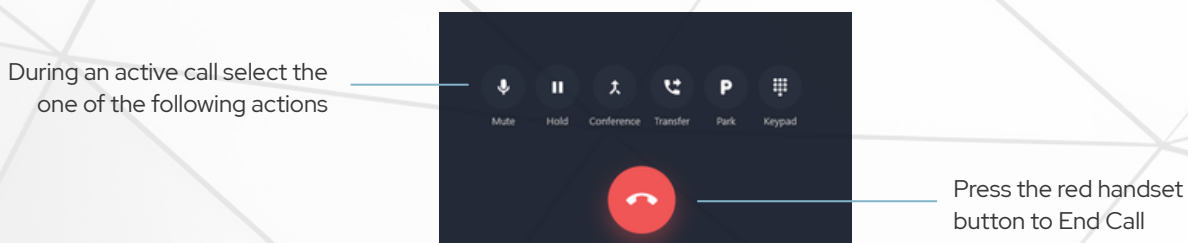

To place a call, click on the dialer icon  in the top of your Desktop App.

Enter the phone number or extension number, then click the green handset icon to start the call.

Call Actions

During a call, you can perform a number of actions: Mute, Hold, Conference, Transfer and Park Calls.

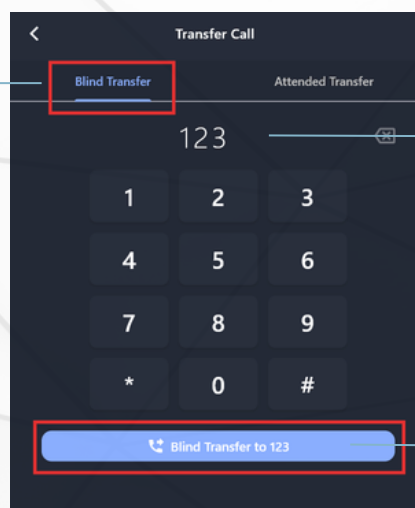

Blind Transfer Calls

Enter the extension or number of the person you want to transfer the call to and Press the Blind Transfer Bar.

Step 1 - During an active call select **Transfer**

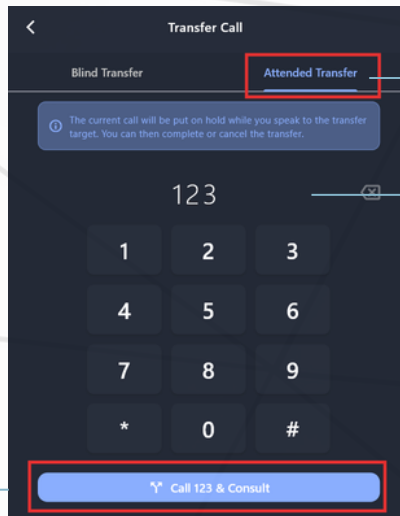

Step 2 - Select Blind Transfer

Attended Transfer Calls

Enter the Ext or number of the person you want to transfer the call to and Press Call & Consult Bar.

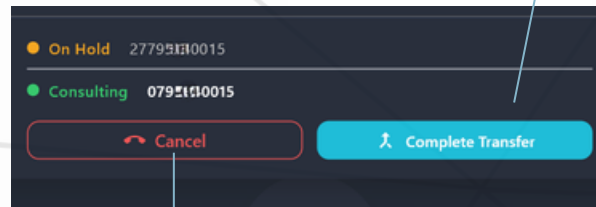

Step 1 - During an active call select **Transfer**

Step 2 - Select Attended Transfer

Step 3 - Enter the Extension or Number

Step 5 - Complete Transfer to connect the caller with the receiver

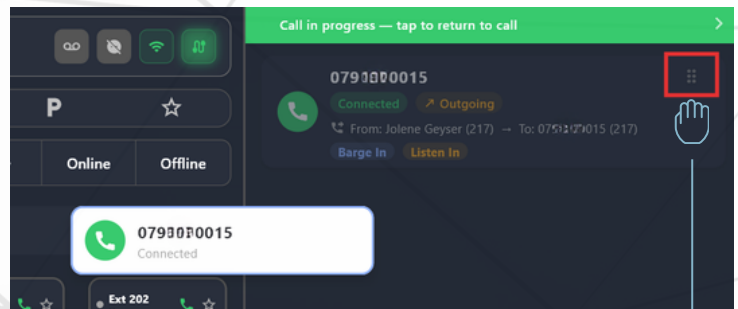

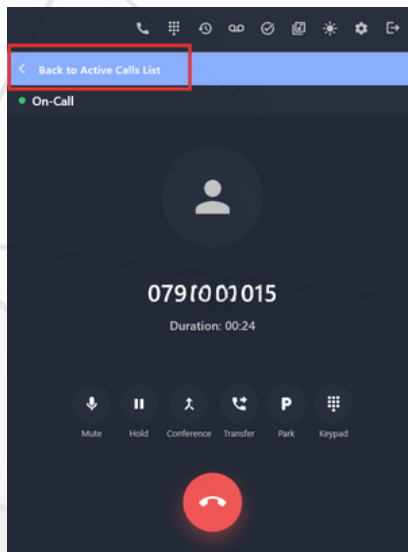

Step 4 - Consult with Receiver

Or **Cancel** if Transfer can not be executed. Consult with the caller again

Drag & Drop Calls

You can quickly transfer or park an active call using a simple drag-and-drop motion.

Step 1 - During an active call select **Back to Active Calls List**

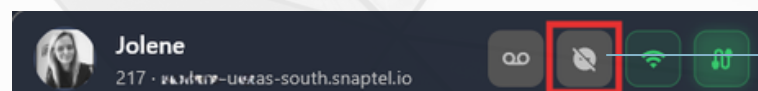

Step 2 - Grab the 6Dots/Drag Handle
Move the call over the Extension list/ Directory, Park or Favorites

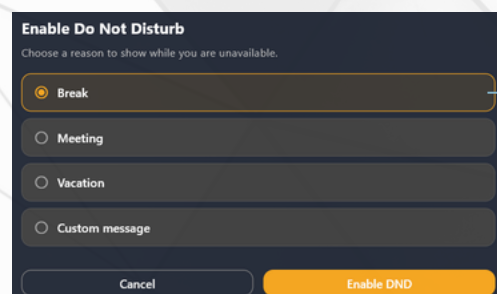

Step 3 - Simply Drop the call on the selected contact to successfully **Blind** transfer the call

Change your Status

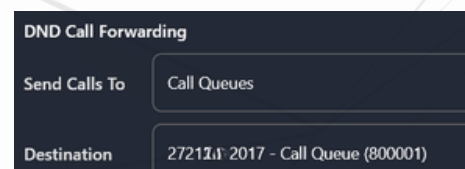

Setup your DND status to notify your teams of your availability

Step 1 - Press the selected DND icon to Activate your status

Step 2 - Set your Status which will be visible to other users to see.

Remember to edit you DND Call Forwarding rules in the Settings Tab
